

## **Dear Workers**

The State of Israel addresses you in order to try to prevent an unpleasant situation.

The State of Israel has taken on a new policy in regard to foreign citizens.

We are allowing any illegal aliens the chance to leave the country without suffering any criminal charges or fines.

The State of Israel has given specific instructions that the people who will be carrying out this work will do their utmost in order to prevent damage to the honor and property of the illegal aliens.

It is the obligation of the State of Israel to uphold the individual rights of the illegal aliens, on the one hand, but it also has the right to uphold its own laws and has the prerogative to do so.

The State of Israel has no interest in persecuting tourists who are here on a legitimate tourist visa, but rumors that we will be giving permanent status to illegal aliens are unfounded.

Visas and Work Permits will not be given out to people who were tourists or fugitives.

We intend to strictly enforce the law by any means necessary. Please do not be led astray by people who are unauthorized to deal with these issues.

**IMMIGRATION ADMINISTRATION**
